FLEXO

Light

# Flexo.Light

The Flexo.Light supports the leading RFID standards (MIFARE® Classic and MIFARE® DESFire® EV). It can be used both in private mode and in multi-user mode, which enables flexible use for a wide range of purposes.

- long battery life (approx. 25,000 locking cycles)
- external battery access and battery change without dismantling the lock
- battery warning (visual)
- 5 user cards can be assigned in private mode
- 3 master cards can be assigned
- simple adaptation to the installation situation thanks to adjustable cam (in 90° steps)
- Easy to retrofit through 16 x 19mm mounting hole
